

# STEAMER

**March**  
**2nd - 5th,**  
**10th - 12th**  
**2016**

## **Steamer has opened it's submissions for the *INTERACTIVE LAB***

Steamer Lab is an international program focusing on the meeting point of Story & Technology. Our mission is to create a hands on with minds on experience that brings together diverse groups of people to explore new digital technologies. Our end goal is creating an interactive + VR narrative based prototype.

Steamer Lab is a **two weekend long** program that offers portfolio reviews & one-on-one meetings with local & international mentors that give insight into personal exploration. **We begin** March 2nd-5th with interactive & Virtual Reality workshops & masterclasses to provide knowledge & inspiration. **We'll end** March 10th -12th with a 72 hour intense hands-on development phase to create a prototype of your dream project whether it's a web interactive project / virtual reality film.

The program is open to filmmakers, animators, designers, programmers, and interactive media professionals with a specific project in mind.

**The submissions deadlines for the 2016 Interactive Lab are as**

**open**

**December 28th, 2015**

**close**

**January 31st, 2016**

## **How to apply**

Email us a PDF file in English by midnight (CET) January 31st with the following answers:

- Why would you like to participate in Steamer lab?
- Describe your recent Interactive project or idea in mind (150 words)
- What interests you the most in the field of interactive storytelling?

### **Please attach:**

- Links to digital projects that inspire you
- A short bio
- Website to online portfolio
- Headshot (portrait)
- Contact details
