

WIX

Let's grow your brand with a mobile app

And connect with your customers more than ever

Deliver a top-notch mobile experience

We'll create a custom mobile app to increase your engagement, build brand loyalty, and drive revenue. Give your customers a smooth mobile experience to easily book, shop and connect with your business anytime, straight from their phones.

Stand out among competitors

Showcase your brand and get the look and feel you want. Add credibility and trustworthiness by listing your business in the App Store and Google Play.

Built-in tools to enhance customer experience

Build strong customer relationships and promote your products or services with features to book sessions, RSVP to events, and more— all on the go.

Grab customers' attention with notifications

We'll set you up with tools to keep your customers updated using notifications directly on their phones. Let them know about sales and promotions or send a reminder about an upcoming session.

Built for iOS and Android

We'll ensure a reliable and seamless user experience with an app developed for Apple and Android devices. Your app will automatically update to keep up with the latest requirements.

Automatically syncs with your site

Any changes made on the dashboard immediately update on your website and app, so all your content - sessions, prices, blog posts, inventory - are always synced across the board.

See real results faster with a mobile app

increase in number of services booked

286%

more exposure to products or services

85%

more likely to add items to cart

3X

open rate from push notifications over email

We're here to answer all your questions

01.

What are the benefits of having a mobile app?

With 55% of all online traffic and 67% of eCommerce interactions coming from mobile, an app is a great opportunity to set up your customers with a convenient way to return to your business.

03.

How will a mobile app help with customer loyalty?

Giving your customers access to your business from anywhere means they'll browse longer and more often. An app strengthens your brand identity and gives you a competitive edge.

05.

How can I customize my app's push notifications?

You have full control over the content of notifications, which products or services you want to promote, and where they link to inside the app.

02.

Which businesses are best suited for a mobile app?

If your business makes money online, has consistent traffic or a strong community with recurring customers, you'll benefit the most. We're happy to talk more about if an app suits your business needs.

04.

Can I make changes to my app myself?

After we launch your app, you can manage and update the content directly from the dashboard in your Wix Account or on the go with the Wix Owner app.

06.

Will my customers still be able to access the mobile version of my site?

Yes, your app will be available in the App Store and Google Play in addition to the mobile version of your website. Customers can still view your site from a mobile web browser.

“With our new app, it’s never been easier for our customers to buy products and for us to manage sales and keep track of inventory with the full and automatic sync between app, website, and dashboard.
